

# Construction Management

Over the course of the last 13 years, Two Row Architect has had the opportunity of acting as prime consultants for major projects all across Ontario. These projects were developed and delivered utilizing construction management techniques. Currently, our firm is working on projects for other First Nation Groups where a desire to maximize local involvement has been clearly expressed. The following list, outlines some of these past and present projects:

- Elders Facility, Saugeen First Nation
- Dreamcatcher Administration & Health Centre, Mississauga First Nation
- Tourism Centre, Six Nations of the Grand River
- Free Standing Birthing Centre, Six Nations of the Grand River
- Children's Centre, Wasauksing First Nation, Parry Island
- I.L. Thomas Elementary School, Six Nations of the Grand River
- Emily C. General Elementary School, Six Nations of the Grand River
- Community Centre Retrofit Project, Oneida Nation of the Thames
- Ganohkwa Sra Women's Shelter, Six Nations of the Grand River
- Elementary School and Recreation Centre Addition, Kettle and Stony Point First Nation
- Health Centre Renovation and Addition, Kettle and Stony Point First Nation

***"These projects are typical of the increased willingness of First Nation Groups to assume the control and responsibility of their construction projects."***
