

# Fescue's Edge Golf Club & Driving Range

With over 10 years in the making, Fescue's Edge Golf Club features a championship nine hole golf course with premiere practice facilities on site and a fully functional 130 seat L.C.B.O. licensed clubhouse. The goal of Fescue's Edge is to offer the public a tremendous golf experience to all levels of golfers at affordable rates. The Delange's, professionals in the landscaping business, along with golf course architect Dan Lavis, have carved out a beautiful nine hole golf course on the outskirts of Brantford. With water coming into play on seven of the nine holes, Delange used his landscaping expertise to beautify the course with a number of bridges crossing the water at different parts of the layout.

With commanding views over the manicured grounds and gentle fairways, this noble clubhouse serves as a pristine beacon for the course.

Tournaments, banquets, weddings, conferences, and intimate gatherings can be hosted both indoors and on the outdoor patio deck - providing panoramic views overlooking the course
